Chance's Figured Rolled Glass is made by a Patent Process, producing the most beautiful and highly finished glass of the kind: the perfect impression of the pattern in relief and the brightness of the reverse surface producing an effect of great brilliancy.

Chance's Double Rolled Cathedral is made by the same Patent Process as Figured Rolled, giving a brilliancy of surface on both sides that is most effective. We are now supplying it at the same prices as the ordinary make of Rolled Cathedral, and can strongly recommend its use.
